## SUMMARY

Enthusiastic and detail-oriented Junior Software Engineer with 0-1 year of hands-on experience in software development and programming. Proficient in key languages such as Node.js, Python, and JavaScript, with a solid foundation in algorithms and data structures. Adept at working collaboratively in team environments and committed to continuous learning and improving coding skills. Eager to contribute to innovative projects and grow within a dynamic tech company.

## EXPERIENCE

### Fullstack Web Developer

#### Freelancer

📅 2024 📍 Nairobi,KE

Developed and maintained dynamic web applications using a tech stack including JavaScript, React, Python, Node.js, and Express.

- Designed and implemented RESTful APIs to support frontend features and ensure seamless integration.
- Worked closely with developers to understand project requirements, contribute to technical specifications, and support development efforts.
- Engaged in code reviews and collaborated with team members to improve code quality and maintainability.

### Wordpress Developer

#### Freelancer

📅 2024 📍 Nairobi, KE

Created custom WordPress themes and plugins to enhance website functionality and design, leveraging PHP, HTML, CSS, and JavaScript.

- Worked on a few projects, all of which were delivered on time
- Used WordPress, Elementor, and other plugins to build and edit custom themes, contributing to a 20% increase in website performance

### Hackathon Participant

#### Freelancer

📅 2024 📍 Nairobi, KE

Collaborated with a diverse team of developers and designers to develop, and present a functional prototype within a month timeframe.

- Utilized technologies such as Kotlin, Next.js, Firebase to build a solution that addressed Technician App.
- Presented the final project to a panel of judges, demonstrating its functionality, user experience, and technical innovation.
- Received certificate for participation.

## EDUCATION

### Software Engineering

#### Moringa School

📅 2023 - 2023 📍 Nairobi, KE

### Understanding Figma

#### Coursera

📅 2023

## SKILLS

WordPress	Elementor	Next.js	
Web Development	HTML	CSS	JS
MySQL	React	Javascript	
REST APIs	Typescript	Kotlin	
Tailwind CSS	Git	MongoDB	Python
Flask	Django		

## STRENGTHS

### Fullstack Development

Expert in frontend and backend programming.

### Web Technologies

Proficient in basic web technologies

### Communication Skills

Known for excellent communication

## MY OPEN-SOURCE WORK

### Wrench-kitchen

🌐 <https://github.com/yukiodesigns/wrench-kitchen>

Developed a sophisticated and responsive website for an Indian pastry business utilizing Next.js and Tailwind CSS. The project involved creating an intuitive user interface and optimizing site performance for an enhanced user experience.

### CurrencyConverter

🌐 <https://github.com/yukiodesigns/CurrencyConverter>

Developed a currency converter application utilizing Next.js for the front-end and Django for the back-end. The project integrates currency exchange rates and an intuitive interface for converting amounts between different currencies.

### Flight-booking-system

🌐 <https://github.com/yukiodesigns/flight-booking-system>

Engineered the backend of a flight booking system using Node.js and MongoDB. Designed and implemented a robust API to handle user requests, manage flight data, and process bookings.
