SUMMARY

Enthusiastic and detail-oriented Junior Software Engineer with 0-1 year of hands- on experience in software development and programming. Proficient in languages such as Node.js, Python, and JavaScript, with a solid foundation in algorithms and data structures. Adept at working collaboratively in team environments and committed to continuous learning and improving coding skills. Eager to contribute to innovative projects and grow within a dynamic tech company

EXPERIENCE

Full stack Web Developer
Freelancer 2024 Nairobi, KE

Developed and maintained dynamic web applications using a tech stack including JavaScript, React, Next.js, Python, Node.js, and Express.
• Designed and implemented RESTful APIs to support frontend features and ensure seamless integration.
• Worked closely with developers to understand project requirements, contribute to technical specifications, and support development efforts.
• Engaged in code reviews and collaborated with team members to improve code quality and maintainability.

Hackathon Participant
Participant 2024 Nairobi, KE

Collaborated with a diverse team of developers and designers to develop, and present a functional prototype within a month timeframe.
• Utilized technologies such as Kotlin, Next.js, Firebase to build a solution that addressed Technician App.
• Presented the final project to a panel of judges, demonstrating its functionality, user experience, and technical innovation.
• Received certificate for participation

EDUCATION

Software Engineering
Moringa School | 2023

Understanding Figma
Coursera | 2023

Fundamentals of Generative AI
Microsoft | 2024

Effective Communication
HP LIFE | 2024

SKILLS

React	Nextjs	Python
Typescript	MySQL	MongoDB
Tailwind	Flask	Django
React Native	JavaScript	Nodejs
Flutter	Git	

STRENGTHS

Frontend Development
Experience with building landing pages

Backend Development
Experience with making RESTful APIs

Mobile Development
Some experience with Flutter and React Native
